SOLUTION

Cutting Spray

70-03

PRODUCT TYPE

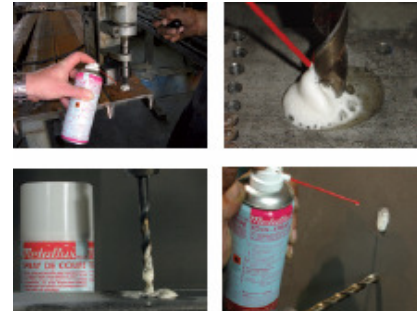

Cooling and lubricating agents combined with mineral oils and synthetic additives.

Economic – Functional - Efficient

Highly recommended for hastaloid steel. #

ADVANTAGES AND PROPERTIES

- Totally synthetic combinations of cutting oils, contains special ingredients that only evaporates with oxygen contact. The evaporation process brings a cooling effect that absorbs most of the heat that occurs when the parts are cutted, drilled or machined.
- Cool the parts and absorbs the heat very fast.
- The **cutting spray** increases the speed of cutting and drilling with no discoloration of stainless steel, aluminium and copper parts when used.
- Excellent adhesion on curved or rounded surfaces.
- Exempt of nitrite and aggressive agents.
- Doesn't leave any bad odours and isn't dangerous for the skin.
- Capacity increases; life of the drill up to 100% and saw blades up to 40%.
- Highly accurate – no over spray, universal applications (one product for all use).

DIRECTIONS FOR USE

Metal drilling: can be sprayed directly onto the drill or on the surface to be drilled.

Saw blade: spray along the cutting edge.

Internal pipe threads: **cutting spray** adheres to the surface.

RECOMMENDATIONS

Flammable.

Follow label instructions.

PACKAGING

Description	Format	Product no.
Spray	400 ml	70-03
Liquid	960 ml	70-0300
Liquid	4 liters	70-0340
Liquid	10 liters	70-0310
Liquid	20 liters	70-0320
Liquid	205 liters	70-0345
