Open Gear & Chain Spray

70-07

NEW formulation – contains titanium

PRODUCT TYPE

The special grease specifically developed for open chains or any fitness machines. This product is used on roller conveyors and forklifts. Ideal for linkages, rollers and toothed wheel etc ...

UTILISATION

Spray directly on to moving parts from a distance of 25-30cm. To maintain performance, repeat the process frequently.

ADVANTAGES AND PROPERTIES

- Non degradable in chain links and pins.
- Complete lubrication and protection for all temperatures: heat, cold and water resistant.
- Excellent adhesion on moving parts.
- Does not run or drip – ideally suited for textile and paper machinery.
- Complete protection and can't be removed with water.
- Ideal for high and low temperature applications. Eliminates humidity.
- Improve and reduces chain noise.
- Has been tested in temperatures from -20°C to 80°C.
- Made from mineral oils (non synthetic).

RECOMMENDATIONS

Pressurized container: protect from sunlight and do not expose at temperatures exceeding 50°C.
Do not pierce or burn, even after use.
Do not spray on a naked flame or any incandescent material.
Keep out of reach from children.
Without adequate ventilation formation of explosive mixtures may be possible.
Do not breathe the vapors.
