SOLUTION

Adhesive Spray

70-11

PRODUCT TYPE

Synthetic, light-coloured adhesive for bonding.
Ideal for : Photo paper, cardboard, textiles, cork, glass wool, polystyrene foam, reproductions, polyether and polyurethane foam, wood fiber boards, carper tiles, felt, metal foils and wood as well as metal and concrete.

UTILISATION

Shake before use. Surfaces must be clean, dry and free of fat and grease.
Apply **Adhesive spray** from a distance of approx. 25cm in a thin and even layer to both sides. Allow 10 minutes to dry, then join and press parts together.
For a short time bonding, apply to one surface only and let dry for about 20 minutes before assembling.

ADVANTAGES AND PROPERTIES

- Clean and colourless.
- Strong adherence, does not run or slump.
- Impervious to water.
- Protect against corrosion and wear.
- Stable viscosity from -20°C to 120°C.
- No hazardous ingredients.

RECOMMENDATIONS

Flammable.
Follow label instructions.
