Silicone Spray

70-64

PRODUCT TYPE

Universal slide and separation product for use in the food, catering and drink industry. Protect, maintains, insulates, impregnates, produces a new shine and has antistatic effects.

UTILISATION

Can be used on metal, stainless steel, wood, glass, plastic, rubber, paper and particularly in food industry. NSF H1 Registration: Nr. 1411653. Can be used as a separating agent during forming and injection moulding, very suitable as it is FCHC and CHC free.

ADVANTAGES AND PROPERTIES

- Prevents brittleness, freezing and adhesion of rubber components.
- Protect electric contacts from dampness.
- Operable temperature range from -45 up to +220
- Avoids creaking and squeaking noises.
- Prevents adhesion of items being transported on conveyor belts, chutes and slides.

DIRECTIONS FOR USE

Clean and degrease surfaces (e.g. using Metaflux 70-15 Rapid Cleaning Spray). Shake the can and spray on product thinly.
