

PTFE

100% Teflon

70-87

PRODUCT TYPE

This is a durable and a tough smooth coating especially for dry sliding surfaces with a low frictional coefficient.

UTILISATION

Clean and degrease surfaces before applying the spray.
Spray a fine film of 70-87 and spread with a brush or a clean cloth.
Let stand awhile and don't rub.

AVANTAGES AND PROPERTIES

- Free of fats and metals.
- Clean, degrease free with no build ups.
- Good adherence and no leaking.
- Impervious to water, dampness, alkali and medium acids.
- Stable viscosity for -30°C to 150°C.
- Compatible with most synthetics and elastomers products: neutral reaction.
- Hinders rust and oxidation: bolts, nuts and washers.

RECOMMENDATIONS

Flammable.
Follow label instructions.
No hazardous ingredients.
