

79-01 combi-zinc

Surface conditioning and metallic coating made of ultra-brilliant zinc
A unique mix of zinc, aluminum and resins

Use

Protects most metallic surfaces against corrosion
Does touch-ups on galvanized surfaces
Suited for spot-welding

Characteristics

Quick drying
High zinc content
Long lasting protection

Quality/\$

79-01 400 ml

79-02 break cleaner

Fast cleaning product to remove oils and greases on most metallic surfaces and brake systems (Drum and disc)

Use

Degreases and cleans most brake systems

Characteristics

Quick action and penetration
Quick drying
Evaporates quickly – Very powerful spray

750 ml

79-02 750 ml

79-03 silicone-spray

Universal sliding and separation film
Works on metallic surfaces, plastic, wood, leather and rubber

Use

Protects-Cares-Isolates
Metal, rubber and synthetic materials

Characteristics

Colorless
Odorless

Quality/\$

79-03 400 ml

79-04 anti-spatter spray soudure

Protects jets, tools and pieces from spatter

Use

Mould release agent
Protects surfaces against spatter

Characteristics

Silicone free
Washable with warm water
Increases service life of jets and nozzles
Economical in use

Quality/\$

79-04 400 ml

79-06 zinc spray-gray

Metallic coating with long lasting corrosion protection

Use

Protects most metallic surfaces against corrosion
Touch up on galvanized surfaces

Characteristics

Pure zinc at 99%
90% zinc in the dry sheet
Economical in use
Can be painted
Quick drying

Quality/\$

79-06 400 ml

79-08 freeze spray

Economical freeze spray with instant cooling action that lowers the temperature to -40°C

Use

- Shrink fitting of metal parts
- Remove gum and tar from cloth
- Localize faults in electrical components
- Test thermostats

Characteristics

- Colorless
- Odorless
- Safe to use on most surfaces except plastics

-40 °C

79-08 400 ml

79-09 Multi-purpose rust removal

Use

- Releases rusted-in components.
- Displaces moisture and penetrates the narrowest gaps.
- Puts an end to squeaks and creaks.

Characteristics

- Makes screws, threads and connections smoothly accessible.
- Does not attack lacquered surfaces.
- Silicone-free.

Quality/\$

79-09 400 ml

79-11 adhesions-power

High adherence clear lubricant made of high quality synthetic oils

Use

- Prevents jamming and corrosion
- Lubrication of chains and steel cables
- Protects pieces and parts against high pressure

Characteristics

- Reliable adhesion even on moving parts
- Water repellent
- Highly resistant to pressure
- High penetrating power
- High capillarity

Quality/\$

79-11 400 ml

79-12 citro-fresh

Special cleaner based on natural, replaceable raw materials

Use

- Works on: Metal – Concrete – Stone – Marble – Paving – Wood – Glass – and much more...
- Removes: Adhesives and polyurethane deposits – Resins and tar – Paint and graffiti – Pencil marks

Characteristics

- Made of non corrosives natural extracts
- Quick drying on treated surfaces
- Pleasant citrus odor

Quality/\$

79-12 400 ml

79-15 Special cleaner

Use

- Intensely removes oily for;
 - Disc braking
 - To brake parts
 - Engines
 - To small parts
 - Machine

Characteristics

- Not corrosive.
- Quickness, deep-piercing effect.
- Solves itself stubbornly sticking brake dust.
