CORROSION PROTECTOR WAX

70-39

PRODUCT TYPE

Corrosion protection coating for metal surfaces to be simply sprayed on. A good adhesion for all metals in inaccessible panel sections, tools, moulds, machine parts to be stored or transported overseas.

UTILISATION

Shake well
Spray on a clean metal surface.
In extreme conditions, apply a few coatings.
Allow drying between applications (Approx. 70 minutes).

AVANTAGES AND PROPERTIES

- Totally synthetic and long lasting protection.
- Water suppressant with capillary effect.
- Good adhesion to all metals.
- Long lasting flexible protection film against corrosive atmospheric influences.
- Can easily be removed with Metaflux **75-17 Spray Citrus Cleaner** or **75-27** or **75-34**.

RECOMMENDATIONS

Flammable.
Follow label instructions.
