

**AMETA**  
SOLUTION

**Multi-TS**

**75-04**

### **PRODUCT TYPE**

Multi-functional high-temperature resistant anti-spatter neutral fluid. (pH7.5)

### **UTILISATION**

Using a manual spray device, apply a very thin and even layer (20g/m<sup>2</sup>) of MULTI-TS on the components to be protected. After welding, wipe and rinse with water to remove oil and grease residue. No additional preparation is required for components being galvanised. Before painting, clean surface with a UNIVERSAL CLEANER product no. 75-25 or the SUPER UNIVERSAL CLEANER product no. 75-32.

### **ADVANTAGES AND PROPERTIES**

- With high-temperature resistance. Silicone free and no hazardous vapors.
- No solvent, no acids and no solvents.
- Odourless.
- Can be diluted 1 :1.
- Washes off with clean water.
- Non-flammable.
- Economic in use.

### **RECOMMENDATIONS**

Residuals should be filtered before disposal.  
Test for compatibility prior to use.  
Sensitive to freeze. Store at room temperature (5 to 40°C.)

### **PACKAGING**

<b>Description</b>	<b>Format</b>	<b>No. Produit</b>
Liquid	960 ml.	75-0401
Liquid	4 liters	75-0404
Liquid	20 liters	75-0420
Liquid	205 liters	75-0445
